

**Notice to Exporters of Buffalo Meat for registration with
Vietnam Authorities for export of Meat**

Of late, it has been observed that the Health Certificate have been issued for the plants not approved for particular country for a particular period. In view of this, APEDA is strengthening the meat.net system to ensure that the health certificate is issued only for the country which are approved plants for sourcing of meat.

Vietnam which is a largest market of Indian buffalo meat has approved only 32 plants. The other processing plants have not applied to the concerned authorities for registration and approval in Vietnam. As per approval of competent authority, it is mandatory to register your plant with Vietnam authorities by 31.12.2017. It may be noted that there will be no extension in any case after 31.12.2017.

Submitted please.
